HUGE SUCCESS AT THE AQUATECH SHOW 2008

The First Week in October 2008 saw the AquaTech 2008 exhibition take place in the RAI at Amsterdam.

AquaTech Amsterdam is the world's leading trade exhibition on process, drinking and waste water technology. The exhibition programme provides an extensive overview of the latest developments in the fields of:

- Water treatment
- Transport and storage
- Process control and process automation
- Point of use

This year saw a record number of visitors to the App-Chem stand, with positive reaction to a number of new and re-launched products.

One Visitor is quoted as saying:

"The Best Kits on the market.....makes other kits look like poor imitations"

"Best Kits for Years"

App-Chem also used the show to advertise for distributors, enabling us to supply on a global basis. This was hugely successful and we will be pursuing these leads during the next few months.

Please Note:

As part of App-Chem's commitment to continued investment the website is going through a transition period which will be completed by the New Year.

Burette Kit

One of the most highly thought of kits in Amsterdam was the Burette Kit

The only kit on the market to take 5 burettes
This kit offers the user the ultimate testing facility in the field.

The use of the burettes leads to:

- Better accuracy
- Simple test identification
- No time consuming apparatus set up
- Easy to clean
- Back in the RUGGED BLACK ENGINEERS CASE

ATP

The ATP meter generated huge amounts of interest at the show and is proving to be extremely competitive in the marketplace.

The PD-10N combines extreme sensitivity, easy handling and low cost for ultra fast measurement of hygiene status.

Advantages of the PN-10N are:

- Patented measurement of ATP/AMP sensitivity
- Detergent tolerant enzymes with no inhibition from cleaning agent residues
- Simple transfer to Microsoft Excel
- Durability
- The detection of microorganisms without the prior time consuming qualification

Getting in touch

Whether you want to place an order, request a catalogue, have a query, or would like to arrange a visit please get in touch with us in one of the following ways.
